READY FOR ACTION

Beside the Video and Audio product lines, camRade offers all kind of protection. Carrying bags and accessories for monitors, tripods and lenses. camRade has also developed an ingenious solution for the transportation of your lighting equipment that can be used as a backpack. Our bags are made of high quality material, conforming to the high standards, associated with all camRade products.

travelMate

travelMate is an extremely practical backpack, ruggedly made from Cordura 1000 material, and designed to carry cameras and accessories with maximum ease. The backpack is configured so that weight is evenly distributed across shoulders and hips, thereby achieving optimum comfort. travelMate is particularly suitable for motorcycle use or simply when you need to keep both hands free. The TM Handy I now also includes a notebook computer pocket.

Grabber Warmers

Instant heat that lasts 12 or 40 Hours+.

A perfect combination with the camRade snowCoats! HEAT TREAT Adhesive Warmers are a non-toxic, environmentally friendly, odorless heat source using all natural ingredients that are non-combustible. Simply open the outer package and expose the packet to air. The Adhesive Warmer is designed to warm gradually and reach average temperature in approximately 20 minutes.

Avg. temp. 127°F (53°C), max. temp. 154°F (68°C) when used as directed.

CAMRADE offers a wide variety of carrying and protective bags for all kinds of professional AV equipment. Thanks to the clever designs and use of sophisticated materials such as Cordura 1000 and solid stitchery, every CAMRADE provides your equipment with maximum protection and gives you convenience when carrying and travelling. The CAMRADE collection is expanding all the time, since suitable camRades are continually being developed for newly released hardware. The range will be completed by smart add-ons such as compartments and protective interiors.
